WHO ARE WE?

Established in 2016 in Sharjah, United Arab Emirates, AL MURAQIB FIBER GLASS INDUSTRY L.L.C. has grown to become a trusted name in the design, manufacturing, and installation of high-quality GRP (Glass Reinforced Plastic) products. Our company was founded with the objective of providing innovative and certified fiberglass solutions with a focus on quality, durability, and customer satisfaction.

While we began with a strong emphasis on water storage systems, we have since expanded our capabilities and product offerings to meet the evolving needs of the construction, infrastructure, and architectural sectors. Today, we offer a wide range of custom-engineered fiberglass solutions including but not limited to:

- GRP Water Storage Tanks
- Fiberglass Swimming Pool Structures
- GRP Ceilings & Cladding
- Decorative & Architectural GRP Elements
- GRP Enclosures, Cabinets & Custom Covers
- GRP Ducts and Pipework
- GRP Linings & Waterproofing Systems
- GRP MEP Utility Supports and Housings

We pride ourselves on our ability to deliver bespoke fiberglass solutions tailored to the unique requirements of each project — whether for residential, commercial, or industrial applications. Our expertise spans the entire lifecycle of a project, from design and manufacturing to on-site installation and post-installation support.

Quality Assurance

Our quality management system is certified to BS EN ISO 9001:2015 standards. We strictly adhere to international best practices and are committed to continuous improvement. Every product is manufactured and inspected under rigorous quality control procedures, ensuring compliance with both client specifications and industry benchmarks.

At AL MURAQIB, we believe in building long-term partnerships by delivering excellence in fiberglass engineering, with safety, innovation, and sustainability at the core of our operations.

OUR STRENGTHS

1

Industry Experience & Reliability

AL MURAQIB has built a solid reputation as a reliable GRP solutions provider. With nearly a decade of experience, the company consistently delivers durable, high-quality fiberglass products, earning the trust of clients across residential, commercial, and industrial sectors throughout the UAE.

2

Wide Range of GRP Solutions

From water tanks to architectural elements and custom enclosures, AL MURAQIB offers a comprehensive range of GRP products. This versatility allows the company to cater to varied sectors including construction, infrastructure, and design—providing tailored solutions that meet both functional and aesthetic project demands.

3

End-to-End Project Execution

AL MURAQIB handles every phase of a project in-house—design, manufacturing, installation, and support. This integrated approach ensures streamlined coordination, timely delivery, and strict quality control, offering clients a seamless experience with consistent performance across every stage of execution.

4

Certified Quality Assurance

Committed to excellence, AL MURAQIB operates under a BS EN ISO 9001:2015 certified quality system. Every product undergoes rigorous inspections and meets international standards, guaranteeing compliance, durability, and long-term performance for all types of GRP applications.

5

Skilled & Responsive Technical Team

The company employs experienced technicians and applicators, ensuring high-quality workmanship. Backed by a rapid response support team, AL MURAQIB can dispatch technical experts to any site within 24 hours—delivering efficient service and minimizing downtime in both standard and urgent project situations.

6

Customized Engineering Solutions

With in-house moulding and manufacturing capabilities, AL MURAQIB excels in creating bespoke GRP solutions. Whether for utility support, decorative panels, or complex housings, the company transforms client-specific requirements into durable, precision-engineered fiberglass products built for long-term reliability and performance.

THEY TRUST US

Over the years, one thing we've never compromised on is quality. Our commitment to excellence and customer satisfaction has earned us lasting trust, making us the preferred water tank solution for many of the UAE's top organizations.

PRODUCT LINE

GRP PLUNGE POOLS

Our GRP Plunge Pools are not only expertly engineered for strength and durability, but also thoughtfully designed for effortless, plug-and-play installation. Significantly lighter than traditional concrete pools - at nearly half the weight—they are delivered as a complete, ready-to-use solution. Each unit is pre-fitted with integrated MEP and filtration systems, and finished with high-quality tiling, ensuring minimal on-site work and faster project turnaround.

GRP Cladding

GRP cladding is a strong, lightweight, and low-maintenance solution that enhances both the appearance and durability of structures. It offers excellent resistance to weather, corrosion, UV rays, and moisture ingress.

PRODUCT LINE

GRP PLANTER BOX

GRP planter boxes combine style and strength, offering a modern, lightweight, and highly durable solution for displaying plants in both indoor and outdoor spaces. Resistant to weather, UV rays, and corrosion, they require minimal maintenance while providing long-lasting performance and aesthetic appeal in residential, commercial, and public landscapes.

GRP WATER FEATURE

A GRP (Glass Reinforced Plastic) water feature combines aesthetic appeal with durability. Lightweight yet strong, it resists weathering, corrosion, and impact, making it ideal for gardens, patios, and public spaces. GRP allows intricate designs and various finishes, offering a stylish, low-maintenance solution for enhancing outdoor and indoor environments.

GRP BATHTUB

GRP bathtubs offer a sleek, durable, and lightweight solution for modern bathrooms. Known for their excellent heat retention and resistance to corrosion, these bathtubs provide comfort and longevity. Easy to maintain, they come in various designs, ensuring a stylish and functional addition to any bathroom.

PRODUCT LINE

GRP SEDIMENT BUCKET

GRP sediment buckets are durable, corrosion-resistant containers designed for efficient sediment collection in water treatment processes. Lightweight yet robust, they withstand harsh environments and offer easy handling. With their long-lasting performance and resistance to chemicals, GRP sediment buckets are ideal for industrial, commercial, and environmental applications.

GRP LINING / GRP WATERPROOFING

GRP lining offers a seamless, anti-bacterial, and corrosion-resistant layer, ideal for waterproofing and hygienic protection across various surfaces.

Notable Projects:

1. ROYAL M Hotel Fujairah
2. Integrated Dairy Project at Maleha, Sharjah
3. Five Star Hotel & Hotel Apartments, Ras Al Khaimah
4. Five Luxe JBR

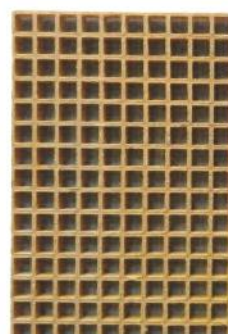

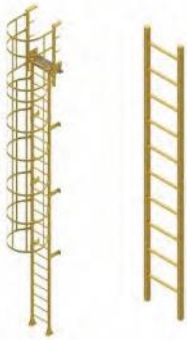

GRP PANEL TANKS

GRP panel tanks offer excellent durability, corrosion resistance, lightweight structure, easy installation, thermal insulation options, and long service life. ideal for safe and hygienic water storage.

Notable Projects:

1. Commercial & Residential Buildings at Meydan, Dubai.
2. Five Palm Jumeirah Hotel
3. Various 33/11KV Substations around Sharjah Municipality.
